

CEMS Energy/Green Team

# CEMS Energy Team

ChromeBooks charge all weekend  
even when they do not need to.

Over 800 Chromebooks charging  
all weekend. We would power  
Down the entire cart for the  
Weekend and long breaks.

# CEMS Energy Team

Open blinds can let in unnecessary  
Radiant heat, warming rooms. We  
closed blinds to ensure rooms remained  
Cool, giving the AC unit a break each  
weekend.

# CEMS Energy Team

Our fluorescent bulbs are 40w each,  
That's a lot of lights and a lot of energy.

We turned light off in classrooms, library  
And other special areas. We even had  
our lights scheduled to turn off an hour  
Earlier every day.

# Recycling Team

On Tuesday and Thursday we travelled  
The school, visiting classrooms and  
Collecting recyclables from the recycle  
bins. Early in the year when it was warm  
we helped pick up trash from school  
grounds.
