

# Tessa Floehr Dublin Coffman High School--Goal to make our energy unit for applicable to real life

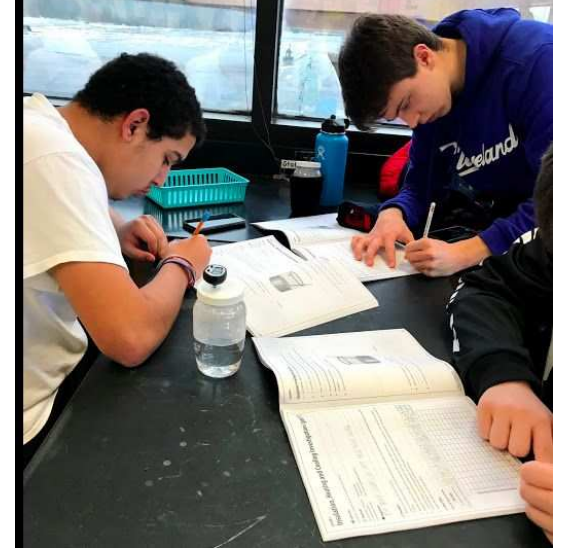

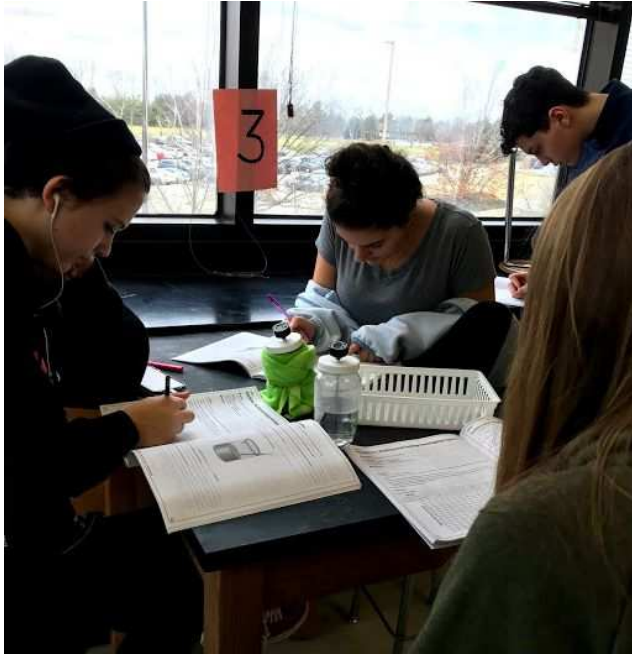

## Energy Transformation stations

# My version of Top 5 Energy Efficiency Family Feud

# Lesson 4 Heating, Cooling, and Insulation

# Relay race matching game--Energy Sources

Students raced to be the first team to match the definition in their hand with the energy source in the hula hoop at the end of their row.

*Summary: We did several labs and readings from the workbook. Students were engaged and enjoyed seeing the real life applications.*
